Re: Recycling codes for Paper Folio Products of APRIL

Dear Sirs/Madams,

We, APRIL as paper manufacturer, have been applying these recycling codes for Paper Folio Products:

- Product : paper = its recycling code **22 PAP**
- Wrapper : kraft + PE lamination = its recycling code **81 PapPet**
- Shrinking : plastic from LDPE =
 - LDPE is Low Density PolyEthylene, which should be as recycled material, but it should be depended on the local authority to justify for the recycling level :
 - If it is assumed as 100% recycled material, then its recycled code 90
 - If it is assumed as some percentages of recycled material, then its recycled code 91
- Pallet : wooden = its recycled code **50 FOR**

Source: Wikipedia for the description of each recycling codes

Best Regards,

Hari Mardianto
